2.	***Just Write!* Publication 2025** We are pleased to present *Just Write!*, our latest e-publication featuring a curated collection of students' written works. This compilation celebrates their growth and effort as young writers and showcases their creativity and voice. This year, selected students also recorded themselves reading their work or reflecting on their writing journey. These multimedia elements, embedded within the publication, add a multimodal dimension to the reading experience. You may access the publication at: https://go.gov.sg/fgpsjustwrite2025. We invite you to explore it with your child as a springboard for meaningful conversations about their learning and to encourage them in their creative writing endeavours. *Back to Top*

3.	**<u>Retention of Science Textbooks and Resources for P3, P4 and P5 Students</u>** The Science syllabus takes on a spiral approach from P3 to P6. Students will need to revisit the concepts and skills learnt at the different levels from time to time. Thus, it is essential that students keep the following resources till the end of P6: 1) **Science Textbooks:** All students must minimally keep their Science Textbooks for reference and revision in preparation for PSLE. 2) **Science Workbooks & Worksheets (e.g. Topical Worksheets, Practice Papers and Assessment Papers):** Students are strongly encouraged to keep the existing resources for reference and revision. 3) **Science Journals:** Current Science Journals will continue to be used in 2026. The notes kept in the journals could serve as reference and help the students with their revision. We seek parents' support to ensure the abovementioned to better support your child in their journey of learning Science. Thank you. *Back to Top*
4.	**<u>STEM Playground 2025 Challenge 2: Slow Descent Helicopter!</u>** Thank you, parents and students, for taking part in the STEM challenges organised by Singapore Science Centre, Curriculum Planning and Development Division (MOE) and The James Dyson Foundation over the March and June Holidays. We hope the activities have fostered stronger bonds between family members and brought about the joy of learning! We sincerely appreciate parents' support in encouraging your child to participate in the STEM Playground 2025 Challenge 2 – Slow Descent Helicopter!. A grand total of **22,584 students** from **113** primary and secondary schools participated and over **11,270 likes** were garnered over the social media. We are proud to share that **Fern Green Primary School is one of the top 10 winning primary schools** that see the highest participation rate for the primary category of the STEM Playground 2025 Challenge 2. It is also evident from the submissions that our students have demonstrated high levels of curiosity and creativity. We seek parents' continued partnership moving forward so that we can sustain our efforts in making Science learning enjoyable for our students. *Back to Top*

7.	**<u>P6: Release of 2025 PSLE Results and Secondary 1 Posting Exercise</u>** The results of the 2025 Primary School Leaving Examination (PSLE) will be released on **25 November 2025 (Tuesday) at 11:00am**. Arrangements have been made for school candidates to receive their results from their respective primary schools. P6 students are required to report to school (Multi-Purpose Hall) in school attire by **10:45am** on that day to collect their PSLE results. Candidates who are unable to return to school to collect their results may appoint a proxy to do so on their behalf by **27 November 2025 (Thursday)**. **Choosing Secondary Schools** Students are encouraged to consider schools holistically when choosing a secondary school that would be a good fit for their educational needs, strengths and interests. This includes considering factors such as school culture, distinctive programmes, subject offerings, and Co-Curricular Activities. Students are also encouraged to include at least 2 to 3 schools within their 6 school choices with previous year's Cut-Off Points (COPs) that are less stringent than their PSLE score. Schools' COPs from last year's Secondary 1 (S1) Posting Exercise only serve as a reference and COPs can vary up to a few points from year to year, depending on the cohort's PSLE results and school choices in the S1 Posting Exercise. Including school choices with less stringent COPs may increase students' chances of securing a place in one of their chosen schools. Full Subject-Based Banding, fully implemented in secondary schools, will provide students greater customisation and flexibility in their learning. Students can visit the schools' open houses and explore their websites to find out more about the schools' offerings. More information is available at: • SchoolFinder (https://go.gov.sg/secschoolfinder) • Open houses held by secondary schools (https://www.schoolbag.edu.sg/story/open-house-for-secondary-schools/) • PSLE Full SBB Microsite (http://moe.gov.sg/microsites/psle-fsbb/) • Websites of secondary schools **Crest Secondary School and Spectra Secondary School** Crest Secondary School (CSS) and Spectra Secondary School (SSS) offer an alternative educational pathway for students eligible for Posting Group 1 only or the Posting Group 1/2 Option Band, and who are more inclined towards practice-oriented, hands-on learning. Eligible students interested to study in CSS or SSS can apply directly by submitting their school application to CSS and SSS. Students who have applied directly should continue to submit the S1 Option Form to facilitate posting to another school of their choice if they are not admitted to CSS or SSS. More information on CSS and SSS can be found on their school websites (www.crestsec.edu.sg and www.spectra.edu.sg). The schools also organise open houses, where students can find out more about the schools' distinctive programmes, subjects, culture, ethos, and other offerings. **Submission of Secondary 1 School Choices and Options** Parents can submit their S1 school choices and options through the online S1 Portal accessible through MOE's S1 Posting website (www.moe.gov.sg/s1-posting), from 11:30am on 25 November 2025 (Tuesday) to 4:30pm on 1 December 2025 (Monday).
