## 2. Appeal for Support: STEM Playground 2025 Challenge – A pH-antom Ship!

Thank you parents and students, for taking part in the above STEM challenge organised by Singapore Science Centre, Curriculum Planning and Development Division (MOE) and The James Dyson Foundation over the March Holidays (ref: T1W8 Parents Notification, Item 2). We hope this activity has helped foster stronger bonds between you and your family members!

The Science Department is pleased to announce that we have many entries from the Fern Green Primary School community. Through the video submissions, we are very heartened to observe many students learning Science in a fun and engaging way! We hope this would help students develop a deeper appreciation for the sciences and technology.

You may scan the QR code or click on the link below to view the compilation of the videos. Do 'LIKE' the video too as more 'LIKES' garnered could help Fern Green win this national challenge! We look forward to all your support!

## 3. Hari Raya Celebration and Commemoration of International Friendship Day

Hari Raya Puasa marks the end of the holy month of Ramadan and is a time for forgiveness, gratitude, and togetherness. These values strongly complement the spirit of International Friendship Day (IFD), which emphasizes respect, understanding, and collaboration across cultures. Additionally, this year's IFD theme, "Singapore: Forging Friendships in a Complex World," highlights the importance of international cooperation and cultural appreciation in today's evolving world.

Hence, our school will be having our Hari Raya Puasa celebration on 7 April 2025 (Monday), in conjunction with the commemoration of International Friendship Day. Through an engaging assembly programme and meaningful classroom activities during FTGP and NE Engagement lessons, students will:

- gain deeper insight into the traditions of Hari Raya; and
- learn the value of friendship, respect, and collaboration in building a more connected society.

Students and staff are encouraged to don their traditional outfits on that day to celebrate our cultural diversity and strengthen our sense of unity as a school. We look forward to a joyful, enriching and meaningful experience for all!

To those celebrating, we wish you Selamat Hari Raya!

## 4. Developing Student Self-Leadership and Responsibility

We understand that it is natural for parents to want to help your child bring items to school when they forget. However, as part of inculcation of e21CC and school values, we want to encourage our students to develop self-leadership and personal responsibility by managing these situations on their own.

As part of our commitment to fostering independence, we seek parents' partnership and support in refraining from bringing forgotten items to school. When students experience the natural consequences of forgetting something, they learn valuable skills such as problem-solving, accountability and preparation- traits that will serve them well beyond the classroom.

If there is an urgent or exceptional circumstance, please rest assured that our staff will extend your child with the necessary support.

We thank you for your positive home-school partnership in helping our FGians grow into responsible and capable individuals.

Back to Top

Thank you.

Ms Agnes Chow Vice-Principal (Academic)
