2.	<u>P4 and P5: e-Learning during PSLE Listening Comprehension on 16 September 2025 (Tuesday)</u>
----	--

The school will be implementing e-Learning for our P4 and P5 students on 16 September 2025 (Tuesday) during the PSLE Listening Comprehension (LC). The objectives are:

- to build a stronger foundation in students for navigating ICT-mediated lessons, and enhance their self-directed and collaborative learning skills and confidence in a digital learning environment; and
- to enhance school's and students' readiness and capabilities for both asynchronous and synchronous Home-Based Learning in the event of emergency school closures due to unforeseen circumstances.

During the e-Learning day, P4 and P5 students are to remain at home and complete the assigned work (Computer and non-Computer work). For assigned computer work, students will need a computing device and internet access. All computer work is to be completed by 28 September 2025 (Sunday). Please see table below for overview.

P4 and P5 e-Learning Days [No School] Core subjects					Total Computer Hours	Total Non- Computer Hours	Total Hours for e- Learning
16 September 2025 (Tuesday)	English	Math	Mother Tongue	Science	2 hours	2 hours	4 hours
Mode & Duration (estimated)	<ul style="list-style-type: none">• Computer work = 30 mins per subject (1 Asynchronous SLS assignment per subject)• Non-Computer work = 30 mins per subject (e.g. Hard copy written work)						

More details about the e-Learning will be sent out via Parents Gateway (PG), along with the Lesson Guides containing assignment information, closer to the e-Learning date.

Parents are **strongly encouraged to plan for alternative care arrangements**.

If you have any queries or require any support from school, do approach your child's form teachers by 29 August 2025 (Friday).

3. **Assembly Talk by Land Transport Authority (LTA)**

Land Transport Authority will conduct an assembly talk on 25 August 2025 (Monday) from 7:30am to 8:00am. The talk will feature a skit titled "Safety on Green Commute," which aims to educate students about essential safety practices for various modes of transportation. Through this engaging presentation, students will learn:

- safe walking habits on roads and paths;
- proper cycling techniques; and
- guidelines for using public transport.

This assembly talk is part of LTA's Path Safety Programme which provides educational modules to schools to promote safe and responsible use of transportation infrastructure.

Post-show Feedback:

LTA would like our students to complete an online feedback form after the show via this link:

<https://go.gov.sg/school-outreach-students>. We seek parents' support to guide your child in responding to the survey. Thank you.
